SUBJECT INDEX

Acoustic emission
Simultaneous measurements of acoustic emission and differential thermal analysis for different $KClO_4$ samples, 91
Activation parameters
Quantitative correlations of activation parameters and procedural factors—dependence on reaction type, 269
Adsorption
Moisture adsorption behaviour of fish foodstuffs at different temperatures, 313

Calorimeter signals
Optimal filtering of calorimeter signals, 329
Carboxylates
Comparison of the thermal behaviour of the metal salts of simple and polymeric carboxylates, 295
CDRTA
Kinetic study of orthoboric acid decomposition by inverse thermal analysis (CDRTA), 151
Chloropurine
Thermal and spectroscopic study of some metal complexes of 6-chloropurine, 339
Clathrates of tetracyano complexes
Kinetics of the thermal decomposition of clathrates of tetracyano complexes CdenPd $(CN)_4 \cdot 2G$ (en type) and $Cd(NH_3)_2 Hg(CN)_4 \cdot 2G$ (Td type), 1
Copolymerization
Thermal degradation behaviour and kinetic parameters of copolymers obtained by copolymerization via zwitterion, 183
Cyclododecenopyridine
Structural, thermal and electrical studies of some transition metal compounds of 2,3-cyclododecenopyridine, 193

Dielectric properties
Thermodynamic and spectroscopic properties of 2-pyrrolidinones. Part 5. Dielectric properties of 2-pyrrolidinone + benzyl alcohol, +1,4-dioxane and +hexamethylphosphortriamide at 303.15 and 323.15 K, 65
Differential thermal analysis
Simultaneous measurements of acoustic emission and differential thermal analysis for different $KClO_4$ samples, 91
Dimethylurea
The thermochemistry of 1,3-dimethylurea and 1,3-dimethylurea nitrate, 243
DSC studies
Thermal-oxidative decomposition of edible oils and fats. DSC studies, 49

Extended real associated solution method
Application of the Prigogine–Flory–Patterson theory and the extended real associated solution method to the excess molar heats of mixing of γ-picoline with *n*-alkane, 321

Fish foodstuffs
Moisture adsorption behaviour of fish foodstuffs at different temperatures, 313
Flow microcalorimetry
Flow microcalorimetric study of the 1:1 stoichiometric reaction, 117

Hydroxy-terminated polybutadiene
Estimation of major volatile products from the first stage of the thermal decomposition of hydroxy-terminated polybutadiene binder, 81

Industrial talcs
Quality control of mineral impurities in industrial talcs by thermogravimetric analysis, 125
Ionizing radiation
Effects of genesis and ionizing radiation on the physicochemical properties and reduction reactivity of NiO–ZnO mixed oxides with hydrogen, 159

$KClO_4$
Simultaneous measurements of acoustic emission and differential thermal analysis for different $KClO_4$ samples, 91
Kinetics of dehydration
Kinetics of dehydration of sodium salt hydrates, 9
KNIS
KNIS—a computer program for the systematic kinetic analysis of non-isothermal thermogravimetric data, 233

Lanthanide quinolinate complexation
Thermodynamics of lanthanide quinolinate complexation in aqueous solution, 39
LiCN
On the thermodynamic consequences of the threefold isomerism in the LiCN system, 109

Magnesium perchlorate
Kinetics and mechanism of thermal decomposition of magnesium perchlorate catalysed by metal metavanadate additives, 205
Metal metavanadate additives
Kinetics and mechanism of thermal decomposition of magnesium perchlorate catalysed by metal metavanadate additives, 205
Multiple-configuration
Multiple-configuration versus single-configuration thermodynamic quantities for water and some other clusters, 99

NiO–ZnO mixed oxides
Effects of genesis and ionizing radiation on the physicochemical properties and reduction reactivity of NiO–ZnO mixed oxides with hydrogen, 159
Nitrile butadiene rubber
Thermooxidation and non-isothermal kinetic study of thermally aged nitrile butadiene rubber, 25
The compensation effect in the thermo-oxidative degradation of some nitrile butadiene rubbers, 33
Non-isothermal kinetic study
Thermooxidation and non-isothermal kinetic study of thermally aged nitrile butadiene rubber, 25
Non-isothermal kinetics model
Solid decomposition reactions induced by laser: the use of a non-isothermal kinetics model, 73

Optimal filtering
Optimal filtering of calorimeter signals, 329
Organometallic films
Thermogravimetric analysis of organometallic films, 131
Orthoboric acid decomposition
Kinetic study of orthoboric acid decomposition by inverse thermal analysis (CDRTA), 151

PAN fibres
Physical changes during thermal oxidation of PAN fibres and effects of γ-radiation pre-treatment, 251
Polyethylene
The thermoxidative decomposition of low density polyethylene in non-isothermal conditions, 305
Potassium fluorooxodiperoxovanadate
Thermal decomposition of potassium fluorooxodiperoxovanadate(V), 213
Potassium nickel oxalate
Kinetic analysis of thermal decomposition reactions. Part 5. Gamma irradiation effects on the thermal decomposition of potassium nickel oxalate, 141
Priogogine–Flory–Patterson theory
Application of the Prigogine–Flory–Patterson theory and the extended real associated solution method to the excess molar heats of mixing of γ-picoline with *n*-alkane, 321
Procedural factors
Quantitative correlations of activation parameters and procedural factors—dependence on reaction type, 269
2-Pyrrolidinones
Thermodynamic and spectroscopic properties of 2-pyrrolidinones. Part 5. Dielectric properties of 2-pyrrolidinone + benzyl alcohol, +1,4-dioxane and +hexamethylphosphortriamide at 303.15 and 323.15 K, 65

γ-Radiation pre-treatment
Physical changes during thermal oxidation of PAN fibres and effects of γ-radiation pre-treatment, 251

Schiff bases
Thermal behaviour and electrical properties of some biologically active sulphonamide Schiff bases, 173
Siderite
The effect of vapour pressure on the reaction of water vapour with siderite and its relevance to retorting of Australian Tertiary oil shales, 59
Single-configuration
Multiple-configuration versus single-configuration thermodynamic quantities for water and some other clusters, 99
Sodium salt hydrates
Kinetics of dehydration of sodium salt hydrates, 9
Sodium tetrazolate
Thermal decomposition of sodium tetrazolate monohydrate and its mixture with tetrazole, 221
Stoichiometric reaction
Flow microcalorimetric study of the 1:1 stoichiometric reaction, 117
Sulphonamide
Thermal behaviour and electrical properties of some biologically active sulphonamide Schiff bases, 173

Tertiary oil shales
The effect of vapour pressure on the reaction of water vapour with siderite and its relevance to retorting of Australian Tertiary oil shales, 59
Thermal decomposition
Kinetics of the thermal decomposition of clathrates of tetracyano complexes CdenPd $(CN)_4 \cdot 2G$ (en type) and $Cd(NH_3)_2Hg(CN)_4 \cdot 2G$ (Td type), 1
Estimation of major volatile products from the first stage of the thermal decomposition of hydroxy-terminated polybutadiene binder, 81
Kinetic analysis of thermal decomposition reactions. Part 5. Gamma irradiation effects on the thermal decomposition of potassium nickel oxalate, 141
Thermal-oxidative decomposition
Thermal-oxidative decomposition of edible oils and fats. DSC studies, 49
Thermo-oxidative degradation
The compensation effect in the thermo-oxidative degradation of some nitrile butadiene rubbers, 33
Thermodynamic quantities
Multiple-configuration versus single-configuration thermodynamic quantities for water and some other clusters, 99
Thermogravimetric analysis
Quality control of mineral impurities in industrial talcs by thermogravimetric analysis, 125
Thermogravimetric analysis of organometallic films, 131
Thermoxidative decomposition
The thermoxidative decomposition of low density polyethylene in non-isothermal conditions, 305
Threefold isomerism
On the thermodynamic consequences of the threefold isomerism in the LiCN system, 109
Transition metal compounds
Structural, thermal and electrical studies of some transition metal compounds of 2,3-cyclododecenopyridine, 193

Zwitterion
Thermal degradation behaviour and kinetic parameters of copolymers obtained by copolymerization via zwitterion, 183
